NEW YORK, August 22, 1866. REFFECTED CHIEF—We, the undersigned, respectfully report that, at various dates within the past six weeks, we were released from Mountjoy Prison, Dublin, where we were confined for six months under the suspension of the habeas corpus act, on suspicion of sympathy in the revolutionary movement in progress through all parts of our native land. If at the time of our arrest we were fully convinced of the power in numbers, spirit and discipline of the L.R. A. to achieve the great object for which the people had become banded, more than ever we are now convinced that the seeds of disaffection have such root in the breasts of our countrymen at home that they RESPECTED CHIEF-We, the undersign

to take the field with fair chances of success on Irish soil.

We bear our willing testimony to the universal feeling of confidence in yourself, in your unsurpassed devotion, and in your integrity and wisdom. We have learned with mortileation that min, unfortunately born in Irieland, have been found the ready tools of the British Government to echo the idiotic ery of "British spy," etc., and that you were set free from prison by the British enemy. The degrading position occupied by England in the family of European nations to-day, owing to the unparalleled organization at home, the work of your hands, is answer sufficient to these effusions of little minds. In this connection we must say that in no way-does the Canadian movement meet with the approxi of our friends at home. It is looked upon as gotten up to thwart your movements in the right direction. Every American officer of our acquaintance yet in prison thinks with us that enough irish blood has been shed on this continent without a tithe of corresponding benefit to the Irish face, either here or elsewhere.

Many of us ioined the American army be-

The court house in this city was filled to its utmost capacity last Monday night at the meeting of the Democratic club—N. G. Scott in the chair, J. W. Dritt secretary,
Mr. McDonald was introduced by the chairman, and for an hour and a half addressed the meeting in a masterly manner upon the purpose of the radicals, as indicated in their legislation in Congress during the past eight man, and for an hour and a half addressed the meeting in a masterly manner upon the purpose of the radicals, as indicated in their legislation in Congress during the past eight months. The argument of Mr. M. was, without exception, one of the most conclusive even listened to by our citizens. To Democrate, and the conservatives who formerly acted with the Republican party, it was a gratifying demonstration of the errors of the radical leaders, and of the danger to the peace and prosperity of the country which must result from the continuance of the radicals in power. Mr. M. commenced with the adoption of the Crittenden resolution in July, 1861, declaring the purpose of the war—showed that with the exception of the radicals there was an unant-mous sentiment that the purpose of the war was only to maintain the suthority of the Federal Government over the territory of the Union. The war closed, but the radicals had refused to have peace as the fruits of the labors, sacrifices and galiantry of the brave soldiers, and demanded the negre suffrage in the South, in the District of Columbia, in the Territories, as well as in all the States of the Union, should be given as the price of Union.

Step by step Mr. M. was accompanied with earnest attention by the audience in his clear, forcible and comprehensive argument upon the freedmen's bureau bill, the civil rights eminds of unprejudiced men, the fact that the twin purpose of the radicals was negro suffrage and the exemption forever of national securities from bearing a share in the burdens imposed by the national debt.

During the progress of the speech the great work of driving the radicals from power.

On motion of Geo. W. Blakemore, Esq., the thanks of the suddence were given to Mr. McDonald for his masterly and courteous argument.

THE Japan Tea is justly growing in favor with all lovers of good Tea. Less than three years ago we were the first west of New York to offer the Japan Teas to the public, having purchased of the first cargo which came direct to the United States from Japan. The fact that we are now selling ten chests where we formerly sold one shows them to be rapidly gaining favor in the estimation of Tea drinkers. Japan Tea is properly a green Tea, but is cured or dried as the Oolong or Black Tea, which gives it the flavor both of the Green and Black Chinese Teas, with the advantage of being fully as healthy as the Black Tea. We are now receiving a lot of fwenty-five chests of the best quality of the new crop, and can fully recommend it to all lovers of good Tea.

A radical Congress voted its members two thousand dollars per year extra, and seventeen months' back pay, not forgetting to appropriate the money. It pretended to vote extra bounty to soldiers, but forgot to make an appropriation to pay it.

Black soldiers are drawing their three hundred dollars extra bounty, with extraordinary facility and felicity, while the white soldiers have to bide their time. Congress makes no mistake where the negro is concerned.
